Fezell could use some help

To the Editor:

I was pleased to hear that Larry Scott was helping out Vic Fezell by trying to ease his overcrowded caseload by sharing some of the drug cases with federal prosecutor Jan Patterson. My only complaint is that since Vic's office is so understaffed and overworked with a massive caseload, why the heck hasn't this Jan Patterson been helping Vic out by taking some of these cases before now?

Vic's the best district attorney this county's ever had. It's about time he gets help from law enforcement.
