## Feazell right man for job

To the Editor:

Unfortunately, more times than we should, Christians take a laid-back attitude toward elected public officials and their policies.

The time has long passed for us to take a stand and rise up, up against forces that destroy our families, schools and churches. The time is now to come out of the closet and speak out against the evil that promotes lawlessness and immorality which will surely lead to the destruction of America.

We are fortunate in this city to have a man such as District Attorney Vic Feazell to represent the citizens who believe in God's word as the answer to this society's needs. To quote from him, "If God doesn't come soon and judge this

nation for its immorality, then He owes Sodom and Gomorrah an apology."

With men like Feazell we have leadership in law enforcement that will fight the legal battle against drugs and alcohol abuse, murder and other crimes against society. It is up to us to arm ourselves against the spiritual battle that rages within the hearts of men that leads to crimes against one another.

We as Christians know what has to be done. We have the weapons to fight the battle, let's take aim and start pulling the trigger while there is still time.
