

STATEMENT OF:

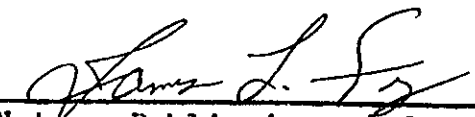

My name is David Spence. I have known Murren Deeb since around April or May of 1982. On several dates after meeting him I heard him making threats against Kenneth Franks and Dail Kelly. He would say things like I'm gonna get even with them, and I'm gonna burn them. On or about June of 82 Murren Deeb ask me if he was to pay me would I kill somebody. I think he offered \$5000 dollars. The ones present at the time of the offer were Christine ^{Dhs.} Fiehl, Jimmy Cooper, Murren Deeb and myself. Murren said if I said if I payed you to kill somebody would you do it and said you sure have much will you give me and I think he said \$5000 dollars and Christy said No you won't either and I told her I'm only kidding baby and Murren said I'm only joking.

The reason Murren was mad at Dail and Kenneth was because he was renting an apt. for Dail at Northwood and she was messing around with Kenneth and Murren felt Dail was just using him for his money and that Kenneth was in on it.

Around the first of August of 1982 I heard on the radio that a girl name Dail had been killed and I thought that it was Dail Kelly. Then I went up to the store on my way to work and told Karen Quassan ^{Dhs.} what I did hear and to tell Lucky (Murren) that if he had anything to do with it that I didn't want anything to do with him. Later that morning he came over on my job and said said "don't be spreading my name around saying that I did"
