Our chief needs to get to work

To the Editor: **294**

Now that the primary elections are over and Vic Feazell has won his race very decisively, it is time Police Chief Larry Scott realized Feazell is the choice of the voters of McLennan County and the city of Waco.

It is a disgrace the way Scott tries to discredit our district attorney with his dirty tricks and press releases to this paper. Come next October before the general elections, Scott and Assistant U.S. Attorney Jan Patterson will have more press releases about Feazell.

It is time the city manager told Scott to get on with police work, such as finding the criminals who mug, murder and rob our senior citizens all over Waco.
