

RICHARD MAKER

I DROVE the <sup>487</sup> van with Curtis  
McLemore, I stayed in the Van,  
CM went up to the house, came back  
and after a few minutes, said we could go,  
I saw children out front and two men  
out front looking for children. Back at  
the station, I suggested to Porky  
that it be best not to remove any  
part of the shed. Others returned  
to clean up, I didn't but would have  
if ordered to.
